UNEVEN

UNEVEN is a **collection of products for your home**, no two items are the same. Products that may be slightly crooked or have a ragged edge. They are striking, unique finds and creations that give your interior an exclusive look.

UNEVEN is also **a way of living and thinking**. We believe it is important to contribute to a better world. UNEVEN stands for "green" and corporate social responsibility. We mainly use natural materials that are refillable or recyclable. Many of our products are made by hand, by people who have a distance to the labor market.

You can also see our green heart in the colors of the UNEVEN logo: aqua blue (water), green (nature) and black (earth). Clear, distinct, sustainable, purely UNEVEN. Enjoy the beauty of imperfection.

*Dare to be uneven
and make your world
a better place!*

OYSTER CANDLES

*The world is like an oyster
and you are the pearl...*

Oysters are like raw husks with a white kernel: rough and uneven on the outside, beautifully shiny and smooth on the inside. Perfectly UNEVEN! With the oyster candles we package sustainability in a shell.

We (re)use oyster shells from Dutch waters and fill them with pure paraffin, the cleanest and best that can be found in Europe. This residual product is not harmful to the environment, contains no animal fats and is free of harmful substances.

Because the oyster candles are UNEVEN, it is best to place them on a dish with a layer of sand or sea salt. Or use our UNEVEN Oyster Rope, a sturdy rope made of real hemp.

Refills and scents:

With an Oyster Candle you bring the best of the sea to your home. You use every shell as often as you want, because you can refill it yourself with the UNEVEN Refill Pearls.

For an even more intense experience at home you can add an UNEVEN Perfumed Pearl.

A unique bright spot in the house.

HAND DIPPED CANDLES

romance with a unique edge

Nothing is as romantic and mood-enhancing as a beautiful candle. The Hand Dipped Candles really add something to it...

These sturdy, durable dip candles are beautifully UNEVEN: they are all hand-drawn using a special dipping technique. And that's obvious: no two candles are the same. What they do have in common is the authentic appearance, the **large number of burning hours**, the high quality and the subtle ivory color.

These candles burn very clean, don't drip, don't smoke and are unscented.

You can see that they are handmade by the different layers that make up each candle (like the annual rings in a tree), visible at the bottom.

Each candle is sold in a matching package and comes with a coaster made of natural coconut fiber.

With a Hand Dipped Candle you put up the most romantic illumination everywhere; on the dinner table, at a wedding, or in an intimate corner in your room. Always a unique bright spot, even during dark days. That's all you need
